

Blue Hudson Group

Myers Briggs Type Indicator Programs

Facts:

- 80% of the time people are working in teams
- There are many unnecessary communications amongst teams just because people feel they need to be visible
- Inappropriate cooperation is the result of rules and regulations Healthy collaboration is an attitude of responsibility
- Control undermines trust. Lack of trust creates conflicts
- Not all team are efficient. Most teams are slow in making decisions
- Technology can slow down processes

How the MBTI Instrument Works to Help Your Organization?

Leadership Development
MBTI tool helps leaders better understand their preferences and behavior in key dimensions of management and leadership.
Communication
MBTI tool provides strategies for understanding the communication styles and needs of self and others and explores ways to meet those needs to enhance communication in workplace settings.
Team Development
MBTI tool helps identify potential sources of conflict and explores how to effectively influence others, how each member contributes to the team, and how to maximize team effectiveness.
Organizational Understanding
MBTI tool can be used to help groups of people better understand the impact of preferences on the corporate culture and optimize the strengths of individual preferences.
Emotional Intelligence (EQ)
MBTI tool can be used to help people of all 16 types increase their level of empathy, persist in the face of obstacles, and control impulses. EQ is believed to enhance leadership ability, enrich relationships, and extend influence.
Stress and Coping
MBTI tool predicts how each of the 16 MBTI types reacts to stressful situations and provides suggestions for managing stress. Also explains how each individual behaves under stress and what can help individuals return to productive behavior.

What to expect?
